To Whom It May Concern

Dear sir,

Testimonial Letter for PM Safety Consultants Limited (PMSCL) (Company Registration number: 2687102 Formed February 1992)

PM Safety Consultants Limited (PMSCL) have carried out a number of contracts for me and other colleagues in NII over the past 10 years. This has included carrying out reviews of the fault studies aspects of safety cases for nuclear installations in the UK, providing guidance on carrying out HAZOPs, carrying out reliability analyses for nuclear safety systems and being involved in research projects.

The work carried out by PMSCL on behalf of NII has always been done to a very high standard and completed within agreed timescales and costs. We are satisfied that PMSCL have a high level of technical capability and fully intend to use their services in the future.

Yours Sincerely,
